DIFFUSER INSTALLATION

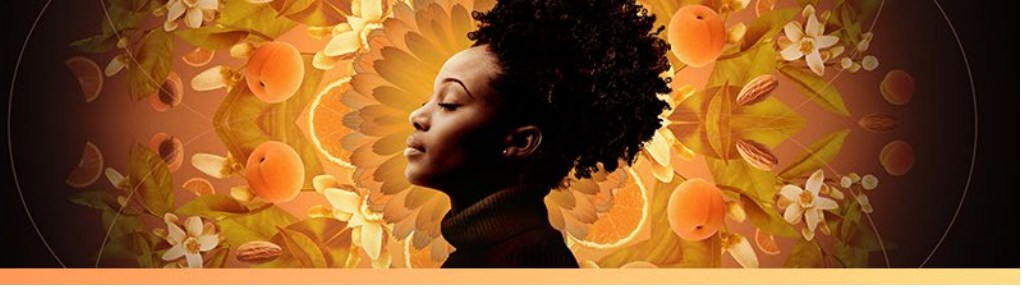

- Install the diffuser close to the air exchanger system, so that it is below it.
- Fix the wall-hanging plate to the wall next to the diffuser.
- Remove the refill cap and screw the refill onto the diffuser head.
- Attach the hose to the diffuser head. Connect the upward-sloping hose to the outlet of your air exchanger by drilling a 1/2” (12.7 mm) diameter hole in the outlet pipe of your air exchanger.
- Turn on the diffuser's power switch.

OPERATIONS FROM THE WIFI AROMA IOT APPLICATION

- On your phone, make sure that Wi-Fi and Location are enabled.
- First, connect your phone to the WI-FI network to which you wish to connect the diffuser.
- Search for the **Aroma IoT** application in the App Store or Google Play, install it and open it.
- Authorize Bluetooth use. Decline to receive notifications.
- Click on **REGISTER** at the bottom of the page, then select the **E-Mail** option. Enter your e-mail address to receive the verification code. Check your junk mail folder, as you may find it there. Enter the code received and click **NEXT**, then create a password of at least 6 characters and click **DONE**.
- Switch on the diffuser by pressing the power button on the side of the diffuser.
- Press and hold the **MODE** button on the diffuser until - **A P** - flashes on the screen.
- On the application, press **Wi-Fi**, then enter your Wi-Fi network password if you haven't already done so and click **Connect**. Please wait while the diffuser connects to your Wi-Fi network. Authorize device search on your local network.
- Give your diffuser a name and click on **CONFIRM**.
